	<b>AS 1 Disclosure of Accounting Policies</b>	<b>A.</b>	<b>ICDS I relating to accounting policies</b>	
			<b>Preamble</b>	
			This Income Computation and Disclosure Standard is applicable for computation of income chargeable under the head "Profits and gains of business or profession" or "Income from other sources" and not for the purpose of maintenance of books of accounts.	In the case of conflict between the provisions of the Income tax Act, 1961 ('the Act') and this Income Computation and Disclosure Standard, the provisions of the Act shall prevail to that extent
			In the case of conflict between the provisions of the Income tax Act, 1961 ('the Act') and this Income Computation and Disclosure Standard, the provisions of the Act shall prevail to that extent.	
	<b>Introducton</b>		<b>Scope</b>	
1	This Standard deals with the disclosure of significant accounting policies <b>followed in preparing and presenting financial statements.</b>	1	This Income Computation and Disclosure Standard deals with significant accounting policies.	<b>ICDS = on lines of AS</b>
2	The view presented in the financial statements of an enterprise of its state of affairs and of the profit or loss can be significantly affected by the accounting policies followed in the preparation and presentation of the financial statements. The accounting policies followed vary from enterprise to enterprise. Disclosure of significant accounting policies followed is necessary if the view presented is to be properly appreciated.			<b>AS = Clarificatory/ Educa- tive in nature</b>
3	The disclosure of some of the accounting policies followed in the preparation and presentation of the financial statements is required by law in some cases.			<b>AS= Clarificatory/Edu cative in nature</b>
4	The Institute of Chartered Accountants of India has, in Standards issued by it, recommended the disclosure of certain			

## Income Computation and Disclosure Standards vis-à-vis Accounting Standards

Sr/ Para No.	<b>Accounting Standards</b> [ <i>presumably (base) corresponding to which ICDSs Issued by CBDT</i> ] [ <i>for application in the preparation of General Purpose Financial Statements and other Financial Reporting, which are subject to the attest function of the members of the ICAI</i> ]	Sr/ Para No.	<b>Income Computation and Disclosure Standards – As per Notification No. SO/892E dated 31<sup>st</sup> March, 2015</b> [ <i>for computation of an assessee's 'profit and gains of business or profession' or 'income from other sources' – u/s 145 of the Income-tax Act, 1961</i> ]	<b>ICDSs vs Actng Stands</b>
	<b>Accounting Standard [AS]</b>		<b>Income Computation and Disclosure Standard [ICDS]</b>	
<b>[1]</b>	<b>[2]</b>	<b>[3]</b>	<b>[4]</b>	<b>[5]</b>
	accounting policies, e.g., translation policies in respect of foreign currency items.			
5	In recent years, a few enterprises in India have adopted the practice of including in their annual reports to shareholders a separate statement of accounting policies followed in preparing and presenting the financial statements.			<b>AS=</b> Clarificatory/ Educative in nature
6	In general, however, accounting policies are not at present regularly and fully disclosed in all financial statements. Many enterprises include in the Notes on the Accounts, descriptions of some of the significant accounting policies. But the nature and degree of disclosure vary considerably between the corporate and the non-corporate sectors and between units in the same sector.			
7	Even among the few enterprises that presently include in their annual reports a separate statement of accounting policies, considerable variation exists. The statement of accounting policies forms part of accounts in some cases while in others it is given as supplementary information.			<b>AS=</b> Clarificatory/ Educative in nature
8	The purpose of this Standard is to promote better understanding of financial statements by establishing through an accounting standard the disclosure of significant accounting policies and the manner in which accounting policies are disclosed in the financial statements. Such disclosure would also facilitate a more meaningful comparison between financial statements of different enterprises.			<b>AS=</b> Clarificatory/ Educative in nature
	<b>Exlanation</b>			
	<b>Fundamental Accounting Assumptions</b>			
9	Certain fundamental accounting assumptions underlie the preparation and presentation of financial statements. They are usually not specifically stated because their acceptance and use are assumed. Disclosure is necessary if they are not followed.			<b>AS=</b> Clarificatory/ Educative in nature

## Income Computation and Disclosure Standards vis-à-vis Accounting Standards

	<b>ICAI</b>		<b>Notified by the CBDT</b>	Remarks-

	<b>Accounting Standard [AS]</b>		<b>Income Computation and Disclosure Standard [ICDS]</b>	
<b>[1]</b>	<b>[2]</b>	<b>[3]</b>	<b>[4]</b>	<b>[5]</b>
10	The following have been generally accepted as fundamental accounting assumptions:—		<b>Fundamental Accounting Assumptions</b>	<b>ICDS = on lines of AS</b>
	<b>(a) Going Concern</b> The enterprise is normally viewed as a going concern, that is, as continuing in operation for the foreseeable future. It is assumed that the enterprise has neither the intention nor the necessity of liquidation or of curtailing materially the scale of the operations.	2	<b>(a) Going Concern</b> "Going concern" refers to the assumption that the person has neither the intention nor the necessity of liquidation or of curtailing materially the scale of the business, profession or vocation and intends to continue his business, profession or vocation for the foreseeable future.	<b>AS=</b> refers to there being no intention or need of liquidation or of curtailment <b>ICDS =</b> also adds reference to continuity in the foreseeable future
	<b>(b) Consistency</b> It is assumed that accounting policies are consistent from one period to another.		<b>(b) Consistency</b> "Consistency" refers to the assumption that accounting policies are consistent from one period to another;	<b>ICDS=</b> on lines of <b>AS</b>
	<b>(c) Accrual:</b> Revenues and costs are accrued, that is, recognised as they are earned or incurred (and not as money is received or paid) and recorded in the financial statements of the periods to which they relate. (The considerations affecting the process of matching costs with revenues under the accrual assumption are not dealt with in this standard.)		<b>(c) Accrual</b> "Accrual" refers to the assumption that revenues and costs are accrued, that is, recognised as they are earned or incurred (and not as money is received or paid) and recorded in the previous year to which they relate.	<b>ICDS=</b> on lines of <b>AS</b>
	<b>Nature of Accounting Policies</b>		<b>Accounting Policies</b>	
11	The accounting policies refer to the specific accounting principles and the methods of applying those principles adopted by the enterprise in the preparation and presentation of financial statements.	3	The accounting policies refer to the specific accounting principles and the methods of applying those principles adopted by a person.	<b>ICDS=</b> on lines of <b>AS</b> , <b>except that in the AS reference is to 'principles</b>

### Income Computation and Disclosure Standards vis-à-vis Accounting Standards

<b>ICAI</b>		<b>Notified by the CBDT</b>		Remarks-
Sr/ Para No.	<b>Accounting Standards</b> [ <i>presumably (base) corresponding to which ICDSs Issued by CBDT</i> ] [ <i>for application in the preparation of General Purpose Financial Statements and other Financial Reporting, which are subject to the attest function of the members of the ICAI</i> ]	Sr/ Para No.	<b>Income Computation and Disclosure Standards – As per Notification No. SO/892E dated 31<sup>st</sup> March, 2015</b> [ <i>for computation of an assessee's 'profit and gains of business or profession' or 'income from other sources' – u/s 145 of the Income-tax Act, 1961</i> ]	<b>ICDSs vs Actng Stands</b>
<b>[1]</b>	<b>Accounting Standard [AS]</b>	<b>[3]</b>	<b>Income Computation and Disclosure Standard [ICDS]</b>	<b>[5]</b>
	<b>[2]</b>		<b>[4]</b>	<b>[5]</b>
				<b>adopted by the enterprise', while in ICDS, reference is to 'principles... by a person'</b>
12	There is no single list of accounting policies which are applicable to all circumstances. The differing circumstances in which enterprises operate in a situation of diverse and complex economic activity make alternative accounting principles and methods of applying those principles acceptable. The choice of the appropriate accounting principles and the methods of applying those principles in the specific circumstances of each enterprise calls for considerable judgement by the management of the enterprise.			<b>AS= Clarificatory/ Educa-tive in nature</b>
13	The various standards of the Institute of Chartered Accountants of India combined with the efforts of government and other regulatory agencies and progressive managements have reduced in recent years the number of acceptable alternatives particularly in the case of corporate enterprises. While continuing efforts in this regard in future are likely to reduce the number still further, the availability of alternative accounting principles and methods of applying those principles is not likely to be eliminated altogether in view of the differing circumstances faced by the enterprises.			<b>AS= Clarificatory/ Educa-tive in nature</b>
	<b>Areas in which Differing Accounting Policies are Encountered</b>			
14	The following are examples of the areas in which different			<b>AS= Clarifi-</b>

<b>[1]</b>	<b>[2]</b>	<b>[3]</b>	<b>[4]</b>	<b>[5]</b>
	accounting policies may be adopted by different enterprises.			catory/ Educa- tive in nature
	(a) Methods of depreciation, depletion and amortisation			
	(b) Treatment of expenditure during construction			
	(c) Conversion or translation of foreign currency items			
	(d) Valuation of inventories			
	(e) Treatment of goodwill			
	(f) Valuation of investments			
	(g) Treatment of retirement benefits			
	(h) Recognition of profit on long-term contracts			
	(i) Valuation of fixed assets			
	(j) Treatment of contingent liabilities.			
15	The above list of examples is not intended to be exhaustive.			
	<b>Considerations in the Selection of Accounting Policies</b>		<b>Considerations in the Selection and Change of Accounting Policies</b>	
16	The primary consideration in the selection of accounting policies by an enterprise is that the financial statements prepared and presented on the basis of such accounting policies should represent a true and fair view of the state of affairs of the enterprise as at the balance sheet date and of the profit or loss for the period ended on that date.	4	Accounting policies adopted by a person shall be such so as to represent a true and fair view of the state of affairs and income of the business, profession or vocation. For this purpose,	<b>ICDS= on lines of AS</b>
17	For this purpose, the major considerations governing the selection and application of accounting policies are:—			
	<b>a. Prudence</b> In view of the uncertainty attached to future events, profits are not anticipated but recognised only when realised though not necessarily in cash. Provision is made for all		(i) the treatment and presentation of transactions and events shall be governed by their substance and not merely by the legal form; and	<b>ICDS= on lines of AS [P 17 b.]</b>

	<b>AS 7 Construction Contracts</b>	<b>C.</b>	<b>ICDS III relating to construction contracts</b>	
	<b>Objective</b>		<b>Preamble</b>	
	The objective of this Standard is to prescribe the accounting treatment of revenue and costs associated with construction contracts. Because of the nature of the activity undertaken in construction contracts, the date at which the contract activity is entered into and the date when the activity is completed usually fall into different accounting periods. Therefore, the primary issue in accounting for construction contracts is the allocation of contract revenue and contract costs to the accounting periods in which construction work is performed. This Standard uses the recognition criteria established in the Framework for the Preparation and Presentation of Financial Statements to determine when contract revenue and contract costs should be recognised as revenue and expenses in the statement of profit and loss. It also provides practical guidance on the application of these criteria.		This Income Computation and Disclosure Standard is applicable for computation of income chargeable under the head "Profits and gains of business or profession" or "Income from other sources" and not for the purpose of maintenance of books of accounts.  In the case of conflict between the provisions of the Income tax Act, 1961 ('the Act') and this Income Computation and Disclosure Standard, the provisions of the Act shall prevail to that extent	In the case of conflict between the provisions of the Income tax Act, 1961 ('the Act') and this Income Computation and Disclosure Standard, the provisions of the Act shall prevail to that extent

	ordinary activities of <b>an enterprise</b> from the sale of goods, from the rendering of services, and from the use by others of enterprise resources yielding interest, royalties and dividends. Revenue is measured by the charges made to customers or clients for goods supplied and services rendered to them and by the charges and rewards arising from the use of resources by them. In an agency relationship, the revenue is the amount of commission and not the gross inflow of cash, receivables or other consideration.		or other consideration arising in the course of the ordinary activities of <b>a person</b> from the sale of goods, from the rendering of services, or from the use by others of the person's resources yielding interest, royalties or dividends. <b><u>In an agency relationship, the revenue is the amount of commission and not the gross inflow of cash, receivables or other consideration.</u></b>	
			(2) Words and expressions used and not defined in this Income Computation and Disclosure Standard but defined in the Act shall have the meanings assigned to them in that Act.	
	4.2 Completed service contract method is a method of accounting which recognises revenue in the statement of profit and loss only when the rendering of services under a contract is completed or substantially completed.			<b>AS=</b> Clarificatory/ Educa-tive/ Illustrative in nature
	4.3 Proportionate completion method is a method of accounting which recognises revenue in the statement of profit and loss proportionately with the degree of completion of services under a contract.			<b>AS=</b> Clarificatory/ Educa-tive/ Illustrative in nature
	<b>Explanation</b>			
5	Revenue recognition is mainly concerned with the timing of recognition of revenue in the statement of profit and loss of an enterprise. The amount of revenue arising on a transaction is usually determined by agreement between the parties involved in the transaction. When uncertainties			<b>AS=</b> Clarificatory/ Educa-tive/ Illustrative in nature

## Income Computation and Disclosure Standards vis-à-vis Accounting Standards

	<b>ICAI</b>		<b>Notified by the CBDT</b>	Remarks-
Sr/ Para No.	<b>Accounting Standards</b> [presumably (base) corresponding to which ICDSs Issued by CBDT] [for application in the preparation of General Purpose Financial Statements and other Financial Reporting, which are subject to the attest function of the members of the ICAI]	Sr/ Para No.	<b>Income Computation and Disclosure Standards – As per Notification No. SO/892E dated 31<sup>st</sup> March, 2015</b> [for computation of an assessee's 'profit and gains of business or profession' or 'income from other sources' – u/s 145 of the Income-tax Act, 1961 ]	<b>ICDSs vs Actng Stands</b>
	<b>Accounting Standard [AS]</b>		<b>Income Computation and Disclosure Standard [ICDS]</b>	
<b>[1]</b>	<b>[2]</b>	<b>[3]</b>	<b>[4]</b>	<b>[5]</b>
	exist regarding the determination of the amount, or its associated costs, these uncertainties may influence the timing of revenue recognition.			
	<b>Sale of Goods</b>		<b>Sale of Goods</b>	
6	6.1 A key criterion for determining when to recognise revenue from a transaction involving the sale of goods is that the seller has transferred the property in the goods to the buyer for a consideration. The transfer of property in goods, in most cases, results in or coincides with the transfer of significant risks and rewards of ownership to the buyer. However, there may be situations where transfer of property in goods does not coincide with the transfer of significant risks and rewards of ownership. Revenue in such situations is recognised at the time of transfer of significant risks and rewards of ownership to the buyer. Such cases may arise where delivery has been delayed through the fault of either the buyer or the seller and the goods are at the risk of the party at fault as regards any loss which might not have occurred but for such fault. Further, sometimes the parties may agree that the risk will pass at a time different from the time when ownership passes.	3	In a transaction involving the sale of goods, the revenue shall be recognised when the seller of goods has transferred to the buyer the property in the goods for a price or all significant risks and rewards of ownership have been transferred to the buyer and the seller retains no effective control of the goods transferred to a degree usually associated with ownership. <b><u>In a situation, where transfer of property in goods does not coincide with the transfer of significant risks and rewards of ownership, revenue in such a situation shall be recognised at the time of transfer of significant risks and rewards of ownership to the buyer.</u></b>	<b>ICDS=</b> on lines of <b>AS</b> <i>[the bold underlined portion in ICDS was not in the draft version]</i>
	6.2 At certain stages in specific industries, such as when agricultural crops have been harvested or mineral ores have been extracted, performance may be substantially complete prior to the execution of the transaction generating revenue. In such cases when sale is assured under a forward contract or a government guarantee or where market exists and there is a negligible risk of failure			<b>AS=</b> Clarificatory/ Educa-tive/ Illustrative in nature

## Income Computation and Disclosure Standards *vis-à-vis* Accounting Standards

<b>ICAI</b>		<b>Notified by the CBDT</b>		Remarks-
Sr/ Para No.	<b>Accounting Standards</b> [ <i>presumably (base) corresponding to which ICDSs Issued by CBDT</i> ] [ <i>for application in the preparation of General Purpose Financial Statements and other Financial Reporting, which are subject to the attest function of the members of the ICAI</i> ]	Sr/ Para No.	<b>Income Computation and Disclosure Standards – As per Notification No. SO/892E dated 31<sup>st</sup> March, 2015</b> [ <i>for computation of an assessee's 'profit and gains of business or profession' or 'income from other sources' – u/s 145 of the Income-tax Act, 1961</i> ]	<b>ICDSs vs Actng Stands</b>

	to sell, the goods involved are often valued at net realisable value. Such amounts, while not revenue as defined in this Standard, are sometimes recognised in the statement of profit and loss and appropriately described.			
		4	Revenue shall be recognised when there is reasonable certainty of its ultimate collection.	<b>ICDS=</b> on lines of <b>AS</b> [P 9.2]
		5	Where the ability to assess the ultimate collection with reasonable certainty is lacking at the time of raising any claim for escalation of price and export incentives, revenue recognition in respect of such claim shall be postponed to the extent of uncertainty involved	
7	<b>Rendering of Services</b>		<b>Rendering of Services</b>	
	7.1 Revenue from service transactions is usually recognised as the service is performed, either by the proportionate completion method or by the completed service contract method.	6	Revenue from service transactions shall be recognised by the percentage completion method. Under this method, revenue from service transactions is matched with the service transactions costs incurred in reaching the stage of completion, resulting in the determination of revenue, expenses and profit which can be attributed to the proportion of work completed. Income Computation and Disclosure Standard on construction contract also requires the recognition of revenue on this basis. The requirements of that Standard shall mutatis mutandis apply to the recognition of revenue and the associated expenses for a service transaction.	
	(i) Proportionate completion method—Performance consists of the execution of more than one act. Revenue is			<b>AS=</b> Clarifi-catory/ Educa-

<b>[1]</b>	<b>[2]</b>	<b>[3]</b>	<b>[4]</b>	<b>[5]</b>
	recognised proportionately by reference to the performance of each act. The revenue recognised under this method would be determined on the basis of contract value, associated costs, number of acts or other suitable basis. For practical purposes, when services are provided by an indeterminate number of acts over a specific period of time, revenue is recognised on a straight line basis over the specific period unless there is evidence that some other method better represents the pattern of performance.			tive/ Illustrative in nature
	(ii) Completed service contract method—Performance consists of the execution of a single act. Alternatively, services are performed in more than a single act, and the services yet to be performed are so significant in relation to the transaction taken as a whole that performance cannot be deemed to have been completed until the execution of those acts. The completed service contract method is relevant to these patterns of performance and accordingly revenue is recognised when the sole or final act takes place and the service becomes chargeable.

<b>[1]</b>	<b>[2]</b>	<b>[3]</b>	<b>[4]</b>	<b>[5]</b>
	<b>Accounting Standard [AS]</b>		<b>Income Computation and Disclosure Standard [ICDS]</b>	
	9.1 Recognition of revenue requires that revenue is measurable and that at the time of sale or the rendering of the service it would not be unreasonable to expect ultimate collection.			
	9.2 Where the ability to assess the ultimate collection with reasonable certainty is lacking at the time of raising any claim, e.g., for escalation of price, export incentives, interest etc., revenue recognition is postponed to the extent of uncertainty involved. In such cases, it may be appropriate to recognise revenue only when it is reasonably certain that the ultimate collection will be made. Where there is no uncertainty as to ultimate collection, revenue is recognised at the time of sale or rendering of service even though payments are made by instalments.			Covered supra in Para 4, 5 of ICDS
	9.3 When the uncertainty relating to collectability arises subsequent to the time of sale or the rendering of the service, it is more appropriate to make a separate provision to reflect the uncertainty rather than to adjust the amount of revenue originally recorded.			
	9.4 An essential criterion for the recognition of revenue is that the consideration receivable for the sale of goods, the rendering of services or from the use by others of enterprise resources is reasonably determinable. When such consideration is not determinable within reasonable limits, the recognition of revenue is postponed.			
	9.5 When recognition of revenue is postponed due to the effect of uncertainties, it is considered as revenue of the period in which it is properly recognised.			
	<b>Main Principles</b>

	<b>AS 10 Fixed Assets</b>	<b>E.</b>	<b>ICDS V relating to tangible fixed assets</b>	
			<b>Preamble</b>	
			This Income Computation and Disclosure Standard is applicable for computation of income chargeable under the head "Profits and gains of business or profession" or "Income from other sources" and not for the purpose of maintenance of books of accounts.	
			In the case of conflict between the provisions of the Income tax Act, 1961 ('the Act') and this Income Computation and Disclosure Standard, the provisions of the Act shall prevail to that extent.	
	<b>Introductoin</b>		<b>Scope</b>	
1	Financial Statements disclose certain information relating to fixed assets. In many enterprises these assets are grouped into various categories, such as land, buildings, plant and machinery, vehicles, furniture and fittings, goodwill, patents, trade marks and designs. This standard deals with accounting for such fixed assets except as described in paragraphs 2 to 5 below.	1	<b>This Income Computation and Disclosure Standard deals with the treatment of tangible fixed assets.</b>	<b>ICDS=</b> on lines of <b>AS</b>
2	This standard does not deal with the specialised aspects of accounting for fixed assets that arise under a comprehensive system reflecting the effects of changing prices but applies to financial statements prepared on historical cost basis.			<b>AS=</b> Clarificatory/ Educational/ Illustrative in nature
3	This standard does not deal with accounting for the following items to which special considerations apply:			<b>AS=</b> Clarifi-

	<b>Accounting Standard [AS]</b>		<b>Income Computation and Disclosure Standard [ICDS]</b>	
<b>[1]</b>	<b>[2]</b>	<b>[3]</b>	<b>[4]</b>	<b>[5]</b>
	charged to the profit and loss statement. Only expenditure that increases the future benefits from the existing asset beyond its previously assessed standard of performance is included in the gross book value, e.g., an increase in capacity.			
	12.2 The cost of an addition or extension to an existing asset which is of a capital nature and which becomes an integral part of the existing asset is usually added to its gross book value. Any addition or extension, which has a separate identity and is capable of being used after the existing asset is disposed of, is accounted for separately.	13	The cost of an addition or extension to an existing tangible fixed asset which is of a capital nature and which becomes an integral part of the existing tangible fixed asset is to be added to its actual cost. Any addition or extension, which has a separate identity and is capable of being used after the existing tangible fixed asset is disposed of, shall be treated as separate asset.	<b>ICDS=</b> on lines of <b>AS</b>
13	<b>Amount Substituted for Historical Cost</b>			Not, as such, dealt with in <b>ICDS</b>
	13.1 Sometimes financial statements that are otherwise prepared on a historical cost basis include part or all of fixed assets at a valuation in substitution for historical costs and depreciation is calculated accordingly. Such financial statements are to be distinguished from financial statements prepared on a basis intended to reflect comprehensively the effects of changing prices.			<b>AS=</b> Clarificatory/ Educa-tive/ Illustrative in nature
	13.2 A commonly accepted and preferred method of restating fixed assets is by appraisal, normally undertaken by competent valuers. Other methods sometimes used are indexation and reference to current prices which when applied are cross checked periodically by appraisal method.			<b>AS=</b> Clarificatory/ Educa-tive/ Illustrative in nature

## Income Computation and Disclosure Standards vis-à-vis Accounting Standards

	<b>ICAI</b>		<b>Notified by the CBDT</b>	Remarks-
Sr/ Para No.	<b>Accounting Standards</b> [ <i>presumably (base) corresponding to which ICDSs Issued by CBDT</i> ] [ <i>for application in the preparation of General Purpose Financial Statements and other Financial Reporting, which are subject to the attest function of the members of the ICAI</i> ]	Sr/ Para No.	<b>Income Computation and Disclosure Standards – As per Notification No. SO/892E dated 31<sup>st</sup> March, 2015</b> [ <i>for computation of an assessee's 'profit and gains of business or profession' or 'income from other sources' – u/s 145 of the Income-tax Act, 1961</i> ]	<b>ICDSs vs Actng Stands</b>
	<b>Accounting Standard [AS]</b>		<b>Income Computation and Disclosure Standard [ICDS]</b>	
<b>[1]</b>	<b>[2]</b>	<b>[3]</b>	<b>[4]</b>	<b>[5]</b>
	13.3 The revalued amounts of fixed assets are presented in financial statements either by restating both the gross book value and accumulated depreciation so as to give a net book value equal to the net revalued amount or by restating the net book value by adding therein the net increase on account of revaluation. An upward revaluation does not provide a basis for crediting to the profit and loss statement the accumulated depreciation existing at the date of revaluation.			<b>AS=</b> Clarificatory/ Educa-tive/ Illustrative in nature
	13.4 Different bases of valuation are sometimes used in the same financial statements to determine the book value of the separate items within each of the categories of fixed assets or for the different categories of fixed assets. In such cases, it is necessary to disclose the gross book value included on each basis.			<b>AS=</b> Clarificatory/ Educa-tive/ Illustrative in nature
	13.5 Selective revaluation of assets can lead to unrepresentative amounts being reported in financial statements. Accordingly, when revaluations do not cover all the assets of a given class, it is appropriate that the selection of assets to be revalued be made on a systematic basis. For example, an enterprise may revalue a whole class of assets within a unit.			<b>AS=</b> Clarificatory/ Educa-tive/ Illustrative in nature
	13.6 It is not appropriate for the revaluation of a class of assets to result in the net book value of that class being greater than the recoverable amount of the assets of that class.			<b>AS=</b> Clarificatory/ Educa-tive/ Illustrative in nature
	13.7 An increase in net book value arising on revaluation of fixed assets is normally credited directly to owner's interests under the heading of revaluation reserves and is			<b>AS=</b> Clarificatory/ Educa-tive/ Illustrative

	<b>AS 11 The Effect of changes in Foreign Exchange Rates</b>	<b>F.</b>	<b>ICDS VI relating to the effect of changes in foreign exchange rates</b>	
	<b>Objective</b>		<b>Preamble</b>	
	An enterprise may carry on activities involving foreign exchange in two ways. It may have transactions in foreign currencies or it may have foreign operations. In order to include foreign currency transactions and foreign operations in the financial statements of an enterprise, transactions must be expressed in the enterprise's reporting currency and the financial statements of foreign operations must be translated into the enterprise's reporting currency.  The principal issues in accounting for foreign currency transactions and foreign operations are to decide which exchange rate to use and how to recognise in the financial statements the financial effect of changes in exchange rates.		This Income Computation and Disclosure Standard is applicable for computation of income chargeable under the head "Profits and gains of business or profession" or "Income from other sources" and not for the purpose of maintenance of books of accounts.  In the case of conflict between the provisions of the Income tax Act, 1961 ('the Act') and this Income Computation and Disclosure Standard, the provisions of the Act shall prevail to that extent.	
	<b>Scope</b>		<b>Scope</b>	
1	This Standard should be applied:  (a) in accounting for transactions in foreign currencies; and  (b) in translating the financial statements of foreign operations.	1	This Income Computation and Disclosure Standard deals with: (a) treatment of transactions in foreign currencies; (b) translating the financial statements of foreign operations; (c) treatment of foreign currency transactions in the nature of forward exchange contracts	<b>ICDS= on lines of AS</b>
2	This Standard also deals with accounting for foreign

Sr/ Para No.	<b>Accounting Standards</b> [ <i>presumably (base) corresponding to which ICDSs Issued by CBDT</i> ] [ <i>for application in the preparation of General Purpose Financial Statements and other Financial Reporting, which are subject to the attest function of the members of the ICAI</i> ]	Sr/ Para No.	<b>Income Computation and Disclosure Standards – As per Notification No. SO/892E dated 31<sup>st</sup> March, 2015</b> [ <i>for computation of an assessee's 'profit and gains of business or profession' or 'income from other sources' – u/s 145 of the Income-tax Act, 1961</i> ]	<b>ICDSs vs Actng Stands</b>
	<b>Accounting Standard [AS]</b>		<b>Income Computation and Disclosure Standard [ICDS]</b>	
<b>[1]</b>	<b>[2]</b>	<b>[3]</b>	<b>[4]</b>	<b>[5]</b>
	operation should be translated using the principles and procedures in paragraphs 8 to 16 as if the transactions of the foreign operation had been those of the reporting enterprise itself.		operation shall be translated using the principles and procedures in paragraphs 3 to 6 as if the transactions of the foreign operation had been those of the person himself.	lines of <b>AS</b>
22	The individual items in the financial statements of the foreign operation are translated as if all its transactions had been entered into by the reporting enterprise itself. The cost and depreciation of tangible fixed assets is translated using the exchange rate at the date of purchase of the asset or, if the asset is carried at fair value or other similar valuation, using the rate that existed on the date of the valuation. The cost of inventories is translated at the exchange rates that existed when those costs were incurred. The recoverable amount or realisable value of an asset is translated using the exchange rate that existed when the recoverable amount or net realisable value was determined. For example, when the net realisable value of an item of inventory is determined in a foreign currency, that value is translated using the exchange rate at the date as at which the net realisable value is determined. The rate used is therefore usually the closing rate. An adjustment may be required to reduce the carrying amount of an asset in the financial statements of the reporting enterprise to its recoverable amount or net realisable value even when no such adjustment is necessary in the financial statements of the foreign operation. Alternatively, an adjustment in the financial statements of the foreign operation may need to be reversed in the financial statements of the reporting enterprise.			<b>AS=</b> Clarificatory/ Educa-tive/ Illustrative in nature

	<b>ICAI</b>		<b>Notified by the CBDT</b>	Remarks-
Sr/ Para No.	<b>Accounting Standards</b> [ <i>presumably (base) corresponding to which ICDSs Issued by CBDT</i> ] [ <i>for application in the preparation of General Purpose Financial Statements and other Financial Reporting, which are subject to the attest function of the members of the ICAI</i> ]	Sr/ Para No.	<b>Income Computation and Disclosure Standards – As per Notification No. SO/892E dated 31<sup>st</sup> March, 2015</b> [ <i>for computation of an assessee's 'profit and gains of business or profession' or 'income from other sources' – u/s 145 of the Income-tax Act, 1961</i> ]	<b>ICDSs vs Actng Stands</b>
	<b>Accounting Standard [AS]</b>		<b>Income Computation and Disclosure Standard [ICDS]</b>	
<b>[1]</b>	<b>[2]</b>	<b>[3]</b>	<b>[4]</b>	<b>[5]</b>
	rate for its disclosure in the financial statements of the reporting enterprise.			
29	The incorporation of the financial statements of a non-integral foreign operation in those of the reporting enterprise follows normal consolidation procedures, such as the elimination of intra-group balances and intra-group transactions of a subsidiary (see AS 21, Consolidated Financial Statements, and AS 27, Financial Reporting of Interests in Joint Ventures). However, an exchange difference arising on an intra-group monetary item, whether short-term or long-term, cannot be eliminated against a corresponding amount arising on other intra-group balances because the monetary item represents a commitment to convert one currency into another and exposes the reporting enterprise to a gain or loss through currency fluctuations. Accordingly, in the consolidated financial statements of the reporting enterprise, such an exchange difference continues to be recognised as income or an expense or, if it arises from the circumstances described in paragraph 15, it is accumulated in a foreign currency translation reserve until the disposal of the net investment.			<b>AS= Clarificatory/ Educational/ Illustrative in nature</b>
30	When the financial statements of a non-integral foreign operation are drawn up to a different reporting date from that of the reporting enterprise, the non-integral foreign operation often prepares, for purposes of incorporation in the financial statements of the reporting enterprise, statements as at the same date as the reporting enterprise. When it is impracticable to do this, AS 21, Consolidated Financial Statements, allows the use of			<b>AS= Clarificatory/ Educational/ Illustrative in nature</b>

### Income Computation and Disclosure Standards vis-à-vis Accounting Standards

	<b>AS 12 Accounting for Government Grants</b>	<b>G.</b>	<b>ICDS VII relating to government grants</b>	
			<b>Preamble</b>	
			This Income Computation and Disclosure Standard is applicable for computation of income chargeable under the head "Profits and gains of business or profession" or "Income from other sources" and not for the purpose of maintenance of books of account.	
			In case of conflict between the provisions of the Income Tax Act, 1961 ('the Act') and this Income Computation and Disclosure Standard, the provisions of the Act shall prevail to that extent.	
	<b>Introducton</b>		<b>Scope</b>	
1	This Standard deals with accounting for government grants. Government grants are sometimes called by other names such as subsidies, cash incentives, duty drawbacks, etc.	1	This Income Computation and Disclosure Standard deals with the treatment of Government grants. The Government grants are sometimes called by other names such as subsidies, cash incentives, duty drawbacks, waiver, concessions, reimbursements, etc.	<b>ICDS= on lines of AS</b>
2	This Standard does not deal with:	2	This Income Computation and Disclosure Standard does not deal with:—	
	(i) the special problems arising in accounting for government grants in financial statements reflecting the effects of changing prices or in supplementary information of a similar nature;			
	(ii) government assistance other than in the form of government grants;	(a)	Government assistance other than in the form of Government grants; <b>and</b>	<b>ICDS= on</b>

	3.1 Government refers to government, government agencies and similar bodies whether local, national or international.  <b><u>O.N. : Attention is specifically drawn to paragraph 4.3 of the Preface, according to which Accounting Standards are intended to apply only to items which are material.</u></b>		(a) "Government" refers to the Central Government, State Governments, agencies and similar bodies, whether local, national or international.	<b>ICDS=</b> on lines of <b>AS</b>
	3.2. Government grants are assistance by government in cash or kind to <b>an enterprise</b> for past or future compliance with certain conditions. They exclude those forms of government assistance which cannot reasonably have a value placed upon them and transactions with government which cannot be distinguished from the normal trading transactions of the enterprise.		(b) "Government grants" are assistance by Government in cash or kind to <b>a person</b> for past or future compliance with certain conditions. They exclude those forms of Government assistance which cannot have a value placed upon them and the transactions with Government which cannot be distinguished from the normal trading transactions of the person.	<b>ICDS=</b> on lines of <b>AS</b>
			(2) Words and expressions used and not defined in this Income Computation and Disclosure Standard but defined in the Act shall have the meaning assigned to them in the Act.	
	<b>Explanation</b>			

### Income Computation and Disclosure Standards vis-à-vis Accounting Standards

<b>ICAI</b>		<b>Notified by the CBDT</b>		Remarks-
Sr/ Para No.	<b>Accounting Standards</b> [ <i>presumably (base) corresponding to which ICDSs Issued by CBDT</i> ] [ <i>for application in the preparation of General Purpose Financial Statements and other Financial Reporting, which are subject to the attest function of the members of the ICAI</i> ]	Sr/ Para No.	<b>Income Computation and Disclosure Standards – As per Notification No. SO/892E dated 31<sup>st</sup> March, 2015</b> [ <i>for computation of an assessee's 'profit and gains of business or profession' or 'income from other sources' – u/s 145 of the Income-tax Act, 1961</i> ]	<b>ICDSs vs Actng Stands</b>
	<b>Accounting Standard [AS]</b>		<b>Income Computation and Disclosure Standard [ICDS]</b>	
<b>[1]</b>	<b>[2]</b>	<b>[3]</b>	<b>[4]</b>	<b>[5]</b>
4	The receipt of government grants by an enterprise is significant for preparation of the financial statements for two reasons. Firstly, if a government grant has been received, an appropriate method of accounting therefor is necessary. Secondly, it is desirable to give an indication of the extent to which the enterprise has benefited from such grant during the reporting period. This facilitates comparison of an enterprise's financial statements with those of prior periods and with those of other enterprises.			
	<b>Accounting Treatment of Government Grants</b>			
5	Capital Approach versus Income Approach			
	5.1 Two broad approaches may be followed for the accounting treatment of government grants: the 'capital approach', under which a grant is treated as part of shareholders' funds, and the 'income approach', under which a grant is taken to income over one or more periods.			
	5.2 Those in support of the 'capital approach' argue as follows:			
	(i) Many government grants are in the nature of promoters' contribution, i.e., they are given with reference to the total investment in an undertaking or by way of contribution towards its total capital outlay and no repayment is ordinarily expected in the case of such grants. These should, therefore, be credited directly to shareholders' funds.			
	(ii) It is inappropriate to recognise government grants in the profit and loss statement, since they are not earned but represent an incentive provided by government without related costs.			

### Income Computation and Disclosure Standards vis-à-vis Accounting Standards

	<b>ICAI</b>		<b>Notified by the CBDT</b>	Remarks-
Sr/ Para No.	<b>Accounting Standards</b> [ <i>presumably (base) corresponding to which ICDSs Issued by CBDT</i> ] [ <i>for application in the preparation of General Purpose Financial Statements and other Financial Reporting, which are subject to the attest function of the members of the ICAI</i> ]	Sr/ Para No.	<b>Income Computation and Disclosure Standards – As per Notification No. SO/892E dated 31<sup>st</sup> March, 2015</b> [ <i>for computation of an assessee's 'profit and gains of business or profession' or 'income from other sources' – u/s 145 of the Income-tax Act, 1961</i> ]	<b>ICDSs vs Actng Stands</b>
	<b>Accounting Standard [AS]</b>		<b>Income Computation and Disclosure Standard [ICDS]</b>	
<b>[1]</b>	<b>[2]</b>	<b>[3]</b>	<b>[4]</b>	<b>[5]</b>
	5.3 Arguments in support of the 'income approach' are as follows:			
	(i) Government grants are rarely gratuitous. The enterprise earns them through compliance with their conditions and meeting the envisaged obligations. They should therefore be taken to income and matched with the associated costs which the grant is intended to compensate.			
	(ii) As income tax and other taxes are charges against income, it is logical to deal also with government grants, which are an extension of fiscal policies, in the profit and loss statement.			
	(iii) In case grants are credited to shareholders' funds, no correlation is done between the accounting treatment of the grant and the accounting treatment of the expenditure to which the grant relates.			
	5.4 It is generally considered appropriate that accounting for government grant should be based on the nature of the relevant grant. Grants which have the characteristics similar to those of promoters' contribution should be treated as part of shareholders' funds. Income approach may be more appropriate in the case of other grants.			
	5.5 It is fundamental to the 'income approach' that government grants be recognised in the profit and loss statement on a systematic and rational basis over the periods necessary to match them with the related costs. Income recognition of government grants on a receipts basis is not in accordance with the accrual accounting assumption (see Accounting Standard (AS) 1, Disclosure of Accounting Policies).			

### Income Computation and Disclosure Standards vis-à-vis Accounting Standards

	<b>ICAI</b>		<b>Notified by the CBDT</b>	Remarks-
Sr/ Para No.	<b>Accounting Standards</b> [ <i>presumably (base) corresponding to which ICDSs Issued by CBDT</i> ] [ <i>for application in the preparation of General Purpose Financial Statements and other Financial Reporting, which are subject to the attest function of the members of the ICAI</i> ]	Sr/ Para No.	<b>Income Computation and Disclosure Standards – As per Notification No. SO/892E dated 31<sup>st</sup> March, 2015</b> [ <i>for computation of an assessee's 'profit and gains of business or profession' or 'income from other sources' – u/s 145 of the Income-tax Act, 1961</i> ]	<b>ICDSs vs Actng Stands</b>
	<b>Accounting Standard [AS]</b>		<b>Income Computation and Disclosure Standard [ICDS]</b>	
<b>[1]</b>	<b>[2]</b>	<b>[3]</b>	<b>[4]</b>	<b>[5]</b>
	5.6 In most cases, the periods over which an enterprise recognises the costs or expenses related to a government grant are readily ascertainable and thus grants in recognition of specific expenses are taken to income in the same period as the relevant expenses.			
6	<b>Recognition of Government Grants</b>		<b>Recognition of Government Grants</b>	
	6.1 Government grants available to the enterprise are considered for inclusion in accounts: (i) where there is reasonable assurance that the enterprise will comply with the conditions attached to them; and (ii) where such benefits have been earned by the enterprise and it is reasonably certain that the ultimate collection will be made.  Mere receipt of a grant is not necessarily a conclusive evidence that conditions attaching to the grant have been or will be fulfilled.	4	(1) Government grants should not be recognised until there is reasonable assurance that (i) the person shall comply with the conditions attached to them, and  (ii) the grants shall be received.	<b>ICDS=</b> on lines of <b>AS</b>  <b>ICDS=</b> on lines of <b>AS</b> [P 13]
			(2) Recognition of Government grant shall not be postponed beyond the date of actual receipt.	<b>ICDS=</b> <b>appears</b> on lines of <b>AS</b> [P 5.6, P 18]
	6.2 An appropriate amount in respect of such earned benefits, estimated on a prudent basis, is credited to income for the year even though the actual amount of such benefits may be finally settled and received after the end of the relevant accounting period.			
	6.3 A contingency related to a government grant, arising

		10	compensate. The Government grants in the form of non monetary assets, given at a concessional rate, shall be accounted for on the basis of their acquisition cost.	<b>ICDS=</b> on lines of <b>AS</b>
8	<b>Presentation of Grants Related to Specific Fixed Assets</b>			
	8.1 Grants related to specific fixed assets are government grants whose primary condition is that an enterprise qualifying for them should purchase, construct or otherwise acquire such assets. Other conditions may also be attached restricting the type or location of the assets or the periods during which they are to be acquired or held.			
	8.2 Two methods of presentation in financial statements of grants (or the appropriate portions of grants) related to specific fixed assets are regarded as acceptable alternatives.			
	8.3 Under one method, the grant is shown as a deduction from the gross value of the asset concerned in arriving at its book value. The grant is thus recognised in the profit and loss statement over the useful life of a depreciable asset by way of a reduced depreciation charge. Where the grant equals the whole, or virtually the whole, of the cost of the asset, the asset is shown in the balance sheet at a nominal value.			
	8.4 Under the other method, grants related to			

### Income Computation and Disclosure Standards vis-à-vis Accounting Standards

	<b>ICAI</b>		<b>Notified by the CBDT</b>	Remarks-
Sr/ Para No.	<b>Accounting Standards</b> [ <i>presumably (base) corresponding to which ICDSs Issued by CBDT</i> ] [ <i>for application in the preparation of General Purpose Financial Statements and other Financial Reporting, which are subject to the attest function of the members of the ICAI</i> ]	Sr/ Para No.	<b>Income Computation and Disclosure Standards – As per Notification No. SO/892E dated 31<sup>st</sup> March, 2015</b> [ <i>for computation of an assessee's 'profit and gains of business or profession' or 'income from other sources' – u/s 145 of the Income-tax Act, 1961</i> ]	<b>ICDSs vs Actng Stands</b>
	<b>Accounting Standard [AS]</b>		<b>Income Computation and Disclosure Standard [ICDS]</b>	
<b>[1]</b>	<b>[2]</b>	<b>[3]</b>	<b>[4]</b>	<b>[5]</b>
	depreciable assets are treated as deferred income which is recognised in the profit and loss statement on a systematic and rational basis over the useful life of the asset. Such allocation to income is usually made over the periods and in the proportions in which depreciation on related assets is charged. Grants related to non-depreciable assets are credited to capital reserve under this method, as there is usually no charge to income in respect of such assets. However, if a grant related to a non-depreciable asset requires the fulfillment of certain obligations, the grant is credited to income over the same period over which the cost of meeting such obligations is charged to income. The deferred income is suitably disclosed in the balance sheet pending its apportionment to profit and loss account. For example, in the case of a company, it is shown after 'Reserves and Surplus' but before 'Secured Loans' with a suitable description, e.g., 'Deferred government grants'.			
	8.5 The purchase of assets and the receipt of related grants can cause major movements in the cash flow of an enterprise. For this reason and in order to show the gross investment in assets, such movements are often disclosed as separate items in the statement of changes in financial position regardless of whether or not the grant is deducted from the related asset for the purpose of balance sheet presentation.			
9	<b>Presentation of Grants Related to Revenue</b>			
	9.1 Grants related to revenue are sometimes presented as a credit in the profit and loss statement, either separately or under a general heading such as 'Other

<b>[1]</b>	<b>[2]</b>	<b>[3]</b>	<b>[4]</b>	<b>[5]</b>
	Income'. Alternatively, they are deducted in reporting the related expense.			
	9.2 Supporters of the first method claim that it is inappropriate to net income and expense items and that separation of the grant from the expense facilitates comparison with other expenses not affected by a grant. For the second method, it is argued that the expense might well not have been incurred by the enterprise if the grant had not been available and presentation of the expense without offsetting the grant may therefore be misleading.			
10	<b>Presentation of Grants of the nature of Promoters' contribution</b>			
	10.1 Where the government grants are of the nature of promoters' contribution, i.e., they are given with reference to the total investment in an undertaking or by way of contribution towards its total capital outlay (for example, central investment subsidy scheme) and no repayment is ordinarily expected in respect thereof, the grants are treated as capital reserve which can be neither distributed as dividend nor considered as deferred income.			
11	<b>Refund of Government Grants</b>		<b>Refund of Government Grants</b>	
	11.1 Government grants sometimes become refundable because certain conditions are not fulfilled. A government grant that becomes refundable is treated as an extraordinary item (see Accounting Standard (AS) 5, Net Profit or Loss for the Period, Prior Period Items and Changes in Accounting Policies).			
	11.2 The amount refundable in respect of a	11	<b>The amount refundable in respect of a Government</b>	<b>ICDS= on</b>

	if a grant related to a non-depreciable asset requires the fulfillment of certain obligations, the grant should be credited to income over the same period over which the cost of meeting such obligations is charged to income. The deferred income balance should be separately disclosed in the financial statements.			
15	Government grants related to revenue should be recognised on a systematic basis in the profit and loss statement over the periods necessary to match them with the related costs which they are intended to compensate. Such grants should either be shown separately under 'other income' or deducted in reporting the related expense.			
16	Government grants of the nature of promoters' contribution should be credited to capital reserve and treated as a part of shareholders' funds.			
17	Government grants in the form of non-monetary assets, given at a concessional rate, should be accounted for on the basis of their acquisition cost. In case a non-monetary asset is given free of cost, it should be recorded at a nominal value.			
18	Government grants that are receivable as compensation for expenses or losses incurred in a previous accounting period or for the purpose of giving immediate financial support to the enterprise with no further related costs, should be recognised and disclosed in the profit and loss statement of the period in which they are receivable, as an extraordinary item if appropriate (see Accounting Standard (AS) 5, Net Profit or Loss for the Period, Prior Period Items and Changes in Accounting Policies).

	substantially for use by, or in the operations of, the investing enterprise.			
	3.5 Fair value is the amount for which an asset could be exchanged between a knowledgeable, willing buyer and a knowledgeable, willing seller in an arm's length transaction. Under appropriate circumstances, market value or net realisable value provides an evidence of fair value.		(a) "Fair value" is the amount for which an asset could be exchanged between a knowledgeable, willing buyer and a knowledgeable, willing seller in an arm's length transaction.	<b>ICDS=</b> on lines of <b>AS</b>
			(b) "Securities" shall have the meaning assigned to it in clause (h) of Section 2 of the Securities Contract (Regulation) Act, 1956 ( <b>42 of 1956</b> ), other than Derivatives referred to in sub clause (1a) of that clause.	
	3.6 Market value is the amount obtainable from the sale of an investment in an open market, net of expenses necessarily to be incurred on or before disposal.			
			(2) Words and expressions used and not defined in this Income Computation and Disclosure Standard but defined in the Act shall have the meaning respectively assigned to them in the Act.	
	<b>Exlanation</b>			
	<b>Forms of Investments</b>			
4	Enterprises hold investments for diverse reasons. For some enterprises, investment activity is a significant element of operations, and assessment of the performance of the enterprise may largely, or solely, depend on the reported results of this activity.			

## Income Computation and Disclosure Standards vis-à-vis Accounting Standards

	<b>Accounting Standard [AS]</b>		<b>Income Computation and Disclosure Standard [ICDS]</b>	
<b>[1]</b>	<b>[2]</b>	<b>[3]</b>	<b>[4]</b>	<b>[5]</b>
5	Some investments have no physical existence and are represented merely by certificates or similar documents (e.g., shares) while others exist in a physical form (e.g., buildings). The nature of an investment may be that of a debt, other than a short or long term loan or a trade debt, representing a monetary amount owing to the holder and usually bearing interest; alternatively, it may be a stake in the results and net assets of an enterprise such as an equity share. Most investments represent financial rights, but some are tangible, such as certain investments in land or buildings.			
6	For some investments, an active market exists from which a market value can be established. For such investments, market value generally provides the best evidence of fair value. For other investments, an active market does not exist and other means are used to determine fair value.			
	<b>Classification of Investments</b>			
7	Enterprises present financial statements that classify fixed assets, investments and current assets into separate categories. Investments are classified as long term investments and current investments. Current investments are in the nature of current assets, although the common practice may be to include them in investments.			
8	Investments other than current investments are classified as long term investments, even though they may be readily marketable.			
	<b>Cost of Investments</b>			
			<b>Recognition and Initial Measurement of Securities</b>	

### Income Computation and Disclosure Standards vis-à-vis Accounting Standards

Sr/ Para No.	<b>Accounting Standards</b> [ <i>presumably (base) corresponding to which ICDSs Issued by CBDT</i> ] [ <i>for application in the preparation of General Purpose Financial Statements and other Financial Reporting, which are subject to the attest function of the members of the ICAI</i> ]	Sr/ Para No.	<b>Income Computation and Disclosure Standards – As per Notification No. SO/892E dated 31<sup>st</sup> March, 2015</b> [ <i>for computation of an assessee's 'profit and gains of business or profession' or 'income from other sources' – u/s 145 of the Income-tax Act, 1961</i> ]	<b>ICDSs vs Actng Stands</b>
<b>[1]</b>	<b>Accounting Standard [AS]</b>	<b>[3]</b>	<b>Income Computation and Disclosure Standard [ICDS]</b>	<b>[5]</b>
		4	A security on acquisition shall be recognised at actual cost.	
9	The cost of an investment includes acquisition charges such as brokerage, fees and duties.	5	The actual cost of a security shall comprise of its purchase price and include acquisition charges such as brokerage, fees, tax, duty or cess.	<b>ICDS=</b> on lines of <b>AS</b>
10	If an investment is acquired, or partly acquired, by the issue of shares or other securities, the acquisition cost is the fair value of the securities issued (which, in appropriate cases, may be indicated by the issue price as determined by statutory authorities). The fair value may not necessarily be equal to the nominal or par value of the securities issued.	6	Where a security is acquired in exchange for other securities, <u>the fair value of the security so acquired shall be its actual cost.</u>	<b>ICDS=</b> on lines of <b>AS</b>
11	If an investment is acquired in exchange, or part exchange, for another asset, the acquisition cost of the investment is determined by reference to the fair value of the asset given up. It may be appropriate to consider the fair value of the investment acquired if it is more clearly evident.	7	Where a security is acquired in exchange for another asset, the fair value of the security so acquired shall be its actual cost	<b>ICDS=</b> on lines of <b>AS</b>
12	Interest, dividends and rentals receivables in connection with an investment are generally regarded as income, being the return on the investment. However, in some circumstances, such inflows represent a recovery of cost and do not form part of income. For example, when unpaid interest has accrued before the acquisition of an interest-bearing investment and is therefore included in the price paid for the investment, the subsequent receipt of interest	8	Where unpaid interest has accrued before the acquisition of an interest bearing security and is included in the price paid for the security, the subsequent receipt of interest is allocated between pre acquisition and post acquisition periods; the pre acquisition portion of the interest is deducted from the actual cost.	<b>ICDS=</b> on lines of <b>AS</b>

### Income Computation and Disclosure Standards vis-à-vis Accounting Standards

	<b>ICAI</b>		<b>Notified by the CBDT</b>	Remarks-
Sr/ Para No.	<b>Accounting Standards</b> [ <i>presumably (base) corresponding to which ICDSs Issued by CBDT</i> ] [ <i>for application in the preparation of General Purpose Financial Statements and other Financial Reporting, which are subject to the attest function of the members of the ICAI</i> ]	Sr/ Para No.	<b>Income Computation and Disclosure Standards – As per Notification No. SO/892E dated 31<sup>st</sup> March, 2015</b> [ <i>for computation of an assessee's 'profit and gains of business or profession' or 'income from other sources' – u/s 145 of the Income-tax Act, 1961</i> ]	<b>ICDSs vs Actng Stands</b>
	<b>Accounting Standard [AS]</b>		<b>Income Computation and Disclosure Standard [ICDS]</b>	
<b>[1]</b>	<b>[2]</b>	<b>[3]</b>	<b>[4]</b>	<b>[5]</b>
	is allocated between pre-acquisition and post-acquisition periods; the pre-acquisition portion is deducted from cost. When dividends on equity are declared from pre-acquisition profits, a similar treatment may apply. If it is difficult to make such an allocation except on an arbitrary basis, the cost of investment is normally reduced by dividends receivable only if they clearly represent a recovery of a part of the cost.			
13	When right shares offered are subscribed for, the cost of the right shares is added to the carrying amount of the original holding. If rights are not subscribed for but are sold in the market, the sale proceeds are taken to the profit and loss statement. However, where the investments are acquired on cum-right basis and the market value of investments immediately after their becoming ex-right is lower than the cost for which they were acquired, it may be appropriate to apply the sale proceeds of rights to reduce the carrying amount of such investments to the market value.			
	<b>Carrying Amount of Investments</b>			
	<b>Current Investments</b>			
			<b>Subsequent Measurement of Securities</b>	
14	The carrying amount for current investments is the lower of cost and fair value. In respect of investments for which an active market exists, market value generally provides the best evidence of fair value. The valuation of current investments at lower of cost and	9	<b>At the end of any previous year, securities held as stock in trade shall be valued at actual cost initially recognised or net realisable value at the end of that previous year, whichever is lower.</b>	<b>ICDS= appears on lines of AS</b>

### Income Computation and Disclosure Standards vis-à-vis Accounting Standards

<b>ICAI</b>		<b>Notified by the CBDT</b>		Remarks-
Sr/ Para No.	<b>Accounting Standards</b> [ <i>presumably (base) corresponding to which ICDSs Issued by CBDT</i> ] [ <i>for application in the preparation of General Purpose Financial Statements and other Financial Reporting, which are subject to the attest function of the members of the ICAI</i> ]	Sr/ Para No.	<b>Income Computation and Disclosure Standards – As per Notification No. SO/892E dated 31<sup>st</sup> March, 2015</b> [ <i>for computation of an assessee's 'profit and gains of business or profession' or 'income from other sources' – u/s 145 of the Income-tax Act, 1961</i> ]	<b>ICDSs vs Actng Stands</b>
	<b>Accounting Standard [AS]</b>		<b>Income Computation and Disclosure Standard [ICDS]</b>	
<b>[1]</b>	<b>[2]</b>	<b>[3]</b>	<b>[4]</b>	<b>[5]</b>
	fair value provides a prudent method of determining the carrying amount to be stated in the balance sheet.			
15	Valuation of current investments on overall (or global) basis is not considered appropriate. Sometimes, the concern of an enterprise may be with the value of a category of related current investments and not with each individual investment, and accordingly the investments may be carried at the lower of cost and fair value computed categorywise (i.e. equity shares, reference shares, convertible debentures, etc.). However, the more prudent and appropriate method is to carry investments individually at the lower of cost and fair value.	10	For the purpose of para 9, the comparison of actual cost initially recognised and net realisable value shall be done categorywise and not for each individual security. For this purpose, securities shall be classified into the following categories, <b>namely:-</b> (a) shares; (b) debt securities; (c) convertible securities; and (d) any other securities not covered above.	<b>ICDS=</b> on lines of <b>AS</b>
16	For current investments, any reduction to fair value and any reversals of such reductions are included in the profit and loss statement.			
	<b>Long-term Investments</b>			
17	Long-term investments are usually carried at cost. However, when there is a decline, other than temporary, in the value of a long term investment, the carrying amount is reduced to recognise the decline. Indicators of the value of an investment are obtained by reference to its market value, the investee's assets and results and the expected cash flows from the investment. The type and extent of the investor's stake in the investee are also taken into account. Restrictions on distributions by the investee or on disposal by the investor may affect the value attributed to the investment.			

### Income Computation and Disclosure Standards vis-à-vis Accounting Standards

ICAI		Notified by the CBDT		Remarks-
Sr/ Para No.	<b>Accounting Standards</b> [ <i>presumably (base) corresponding to which ICDSs Issued by CBDT</i> ] [ <i>for application in the preparation of General Purpose Financial Statements and other Financial Reporting, which are subject to the attest function of the members of the ICAI</i> ]	Sr/ Para No.	<b>Income Computation and Disclosure Standards – As per Notification No. SO/892E dated 31<sup>st</sup> March, 2015</b> [ <i>for computation of an assessee's 'profit and gains of business or profession' or 'income from other sources' – u/s 145 of the Income-tax Act, 1961</i> ]	<b>ICDSs vs Actng Stands</b>
<b>[1]</b>	<b>Accounting Standard [AS]</b>	<b>[3]</b>	<b>Income Computation and Disclosure Standard [ICDS]</b>	<b>[5]</b>
18	Long-term investments are usually of individual importance to the investing enterprise. The carrying amount of long-term investments is therefore determined on an individual investment basis.			
19	Where there is a decline, other than temporary, in the carrying amounts of long term investments, the resultant reduction in the carrying amount is charged to the profit and loss statement. The reduction in carrying amount is reversed when there is a rise in the value of the investment, or if the reasons for the reduction no longer exist.			
		11	The value of securities held as stock in trade of a business as on the beginning of the previous year shall be:	
			(a) <u>the cost of securities available, if any, on the day of the commencement of the business when the business has</u> commenced during the previous year; and	
			(b) the value of the securities of the business as on the close of the immediately preceding previous year, in any other case.	
		12	Notwithstanding anything contained in para 9, 10 and 11, at the end of any previous year, securities not listed on a recognised stock exchange; or listed but not quoted on a recognised stock exchange with regularity from time to time, shall be valued at actual cost initially recognised.	
		13	For the purposes of para 9, 10 and 11 where the

	<b>AS 16 Borrowing Costs</b>	<b>I.</b>	<b>ICDS IX relating to borrowing costs</b>	
	<b>Objective</b>		<b>Preamble</b>	
	The objective of this Standard is to prescribe the accounting treatment for borrowing costs.		This Income Computation and Disclosure Standard is applicable for computation of income chargeable under the head "Profits and gains of business or profession" or "Income from other sources" and not for the purpose of maintenance of books of account.  In case of conflict between the provisions of the Income Tax Act, 1961 ('the Act') and this Income Computation and Disclosure Standard, the provisions of the Act shall prevail to that extent.	
	<b>Scope</b>		<b>Scope</b>	
1	This Standard should be applied in accounting for borrowing costs.	1	(1) This Income Computation and Disclosure Standard deals with treatment of borrowing costs.	
2	This Standard does not deal with the actual or imputed cost of owners' equity, including preference share capital not classified as a liability.		(2) This Income Computation and Disclosure Standard does not deal with the actual or imputed cost of owners' equity and preference share capital.	<b>ICDS= on lines of AS</b>
	<b>Definitions</b>		<b>Definitions</b>

	<b>Accounting Standard [AS]</b>		<b>Income Computation and Disclosure Standard [ICDS]</b>	
<b>[1]</b>	<b>[2]</b>	<b>[3]</b>	<b>[4]</b>	<b>[5]</b>
	and other short-term and long-term borrowings;			
	(b) amortisation of discounts or premiums relating to borrowings;			
	(c) amortisation of ancillary costs incurred in connection with the arrangement of borrowings;			
	(d) finance charges in respect of assets acquired under finance leases or under other similar arrangements; and			
	(e) exchange differences arising from foreign currency borrowings to the extent that they are regarded as an adjustment to interest costs.			
	<b>Explanation:</b>			
	Exchange differences arising from foreign currency borrowing and considered as borrowing costs are those exchange differences which arise on the amount of principal of the foreign currency borrowings to the extent of the difference between interest on local currency borrowings and interest on foreign currency borrowings. Thus, the amount of exchange difference not exceeding the difference between interest on local currency borrowings and interest on foreign currency borrowings is considered as borrowings cost to be accounted for under this Standard and the remaining exchange difference, if any, is accounted for under AS 11, The Effect of Changes in Foreign Exchange Rates. For this purpose, the interest rate for the local currency borrowings is considered as that rate at which the enterprise would have raised the borrowings locally had the enterprise not decided to raise the foreign currency borrowings.

	<b>Accounting Standard [AS]</b>		<b>Income Computation and Disclosure Standard [ICDS]</b>	
<b>[1]</b>	<b>[2]</b>	<b>[3]</b>	<b>[4]</b>	<b>[5]</b>
	are those borrowing costs that would have been avoided if the expenditure on the qualifying asset had not been made. When an enterprise borrows funds specifically for the purpose of obtaining a particular qualifying asset, the borrowing costs that directly relate to that qualifying asset can be readily identified.			
9	It may be difficult to identify a direct relationship between particular borrowings and a qualifying asset and to determine the borrowings that could otherwise have been avoided. Such a difficulty occurs, for example, when the financing activity of an enterprise is co-ordinated centrally or when a range of debt instruments are used to borrow funds at varying rates of interest and such borrowings are not readily identifiable with a specific qualifying asset. As a result, the determination of the amount of borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset is often difficult and the exercise of judgement is required.			
10	To the extent that funds are borrowed specifically for the purpose of obtaining a qualifying asset, the amount of borrowing costs eligible for capitalisation on that asset should be determined as the actual borrowing costs incurred on that borrowing during the period less any income on the temporary investment of those borrowings.	5	To the extent the funds are borrowed specifically for the purposes of acquisition, <b>construction or production</b> of a qualifying asset, the amount of borrowing costs to be capitalised on that asset shall be the actual borrowing costs incurred during the period on the funds so borrowed.	<b>ICDS=</b> on lines of <b>AS</b>
11	The financing arrangements for a qualifying asset may result in an enterprise obtaining borrowed funds and incurring associated borrowing costs before some or all of the funds are used for expenditure on the qualifying asset.			

### Income Computation and Disclosure Standards vis-à-vis Accounting Standards

	<b>ICAI</b>		<b>Notified by the CBDT</b>	Remarks-
Sr/ Para No.	<b>Accounting Standards</b> [ <i>presumably (base) corresponding to which ICDSs Issued by CBDT</i> ] [ <i>for application in the preparation of General Purpose Financial Statements and other Financial Reporting, which are subject to the attest function of the members of the ICAI</i> ]	Sr/ Para No.	<b>Income Computation and Disclosure Standards – As per Notification No. SO/892E dated 31<sup>st</sup> March, 2015</b> [ <i>for computation of an assessee's 'profit and gains of business or profession' or 'income from other sources' – u/s 145 of the Income-tax Act, 1961</i> ]	<b>ICDSs vs Actng Stands</b>
	<b>Accounting Standard [AS]</b>		<b>Income Computation and Disclosure Standard [ICDS]</b>	
<b>[1]</b>	<b>[2]</b>	<b>[3]</b>	<b>[4]</b>	<b>[5]</b>
	In such circumstances, the funds are often temporarily invested pending their expenditure on the qualifying asset. In determining the amount of borrowing costs eligible for capitalisation during a period, any income earned on the temporary investment of those borrowings is deducted from the borrowing costs incurred.			
12	To the extent that funds are borrowed generally and used for the purpose of obtaining a qualifying asset, the amount of borrowing costs eligible for capitalisation should be determined by applying a capitalisation rate to the expenditure on that asset. The capitalisation rate should be the weighted average of the borrowing costs applicable to the borrowings of the enterprise that are outstanding during the period, other than borrowings made specifically for the purpose of obtaining a qualifying asset. The amount of borrowing costs capitalised during a period should not exceed the amount of borrowing costs incurred during that period.	6	To the extent the funds are borrowed generally and utilised for the purposes of acquisition, <b>construction or production</b> of a qualifying asset, the amount of borrowing costs to be capitalised shall be computed in accordance with the following formula namely :—  $AX \frac{B}{C}$ Where A = borrowing costs incurred during the previous year except on borrowings directly relatable to specific purposes; B = (i) the average of costs of qualifying asset as appearing in the balance sheet of a person on the first day and the last day of the previous year;  (ii) in case the qualifying asset does not appear in the balance sheet of a person on the first day or both on the first day and the last day of previous year, half of the cost of qualifying asset;

<b>[1]</b>	<b>[2]</b>	<b>[3]</b>	<b>[4]</b>	<b>[5]</b>
			(iii) in case the qualifying asset does not appear in the balance sheet of a person on the last day of previous year, the average of the costs of qualifying asset as appearing in the balance sheet of a person on the first day of the previous year and on the date of <b>put to use or</b> completion, <b>as the case may be</b> , other than those qualifying assets which are directly funded out of specific borrowings; or	
			C = the average of the amount of total assets as appearing in the balance sheet of a person on the first day and the last day of the previous year, other than those assets which are directly funded out of specific borrowings;	
	<b>Excess of the Carrying Amount of the Qualifying Asset over Recoverable Amount</b>			
13	When the carrying amount or the expected ultimate cost of the qualifying asset exceeds its recoverable amount or net realisable value, the carrying amount is written down or written off in accordance with the requirements of other Accounting Standards. In certain circumstances, the amount of the write-down or write-off is written back in accordance with those other Accounting Standards.			
	<b>Commencement of Capitalisation</b>		<b>Commencement of Capitalisation</b>	
14	The capitalisation of borrowing costs as part of the cost of a qualifying asset should commence when all the following conditions are satisfied:	7	The capitalisation of borrowing costs shall commence:	<b>ICDS= on lines of AS</b>

### Income Computation and Disclosure Standards vis-à-vis Accounting Standards

<b>ICAI</b>		<b>Notified by the CBDT</b>		Remarks-
Sr/ Para No.	<b>Accounting Standards</b> [ <i>presumably (base) corresponding to which ICDSs Issued by CBDT</i> ] [ <i>for application in the preparation of General Purpose Financial Statements and other Financial Reporting, which are subject to the attest function of the members of the ICAI</i> ]	Sr/ Para No.	<b>Income Computation and Disclosure Standards – As per Notification No. SO/892E dated 31<sup>st</sup> March, 2015</b> [ <i>for computation of an assessee's 'profit and gains of business or profession' or 'income from other sources' – u/s 145 of the Income-tax Act, 1961</i> ]	<b>ICDSs vs Actng Stands</b>
<b>[1]</b>	<b>Accounting Standard [AS]</b>	<b>[3]</b>	<b>Income Computation and Disclosure Standard [ICDS]</b>	<b>[5]</b>
	(a) expenditure for the acquisition, construction or production of a qualifying asset is being incurred;		(a) in a case referred to in paragraph 5, from the date on which funds were borrowed;	
	(b) borrowing costs are being incurred; and		(b) in a case referred to in paragraph 6, from the date on which funds were utilised.	
	(c) activities that are necessary to prepare the asset for its intended use or sale are in progress.			
15	Expenditure on a qualifying asset includes only such expenditure that has resulted in payments of cash, transfers of other assets or the assumption of interest-bearing liabilities. Expenditure is reduced by any progress payments received and grants received in connection with the asset (see Accounting Standard 12, Accounting for Government Grants). The average carrying amount of the asset during a period, including borrowing costs previously capitalised, is normally a reasonable approximation of the expenditure to which the capitalisation rate is applied in that period.			
16	The activities necessary to prepare the asset for its intended use or sale encompass more than the physical construction of the asset. They include technical and administrative work prior to the commencement of physical construction, such as the activities associated with obtaining permits prior to the commencement of the physical construction. However, such activities exclude the holding of an asset when no production or development that changes the asset's condition is taking place. For example, borrowing costs incurred while land is under development are capitalised during the period in which activities related to the development are being undertaken.			

### Income Computation and Disclosure Standards vis-à-vis Accounting Standards

	<b>ICAI</b>		<b>Notified by the CBDT</b>	Remarks-

<b>[1]</b>	<b>[2]</b>	<b>[3]</b>	<b>[4]</b>	<b>[5]</b>
	However, borrowing costs incurred while land acquired for building purposes is held without any associated development activity do not qualify for capitalisation.			
	<b>Suspension of Capitalisation</b>			
17	Capitalisation of borrowing costs should be suspended during extended periods in which active development is interrupted.			
18	Borrowing costs may be incurred during an extended period in which the activities necessary to prepare an asset for its intended use or sale are interrupted. Such costs are costs of holding partially completed assets and do not qualify for capitalisation. However, capitalisation of borrowing costs is not normally suspended during a period when substantial technical and administrative work is being carried out. Capitalisation of borrowing costs is also not suspended when a temporary delay is a necessary part of the process of getting an asset ready for its intended use or sale. For example, capitalisation continues during the extended period needed for inventories to mature or the extended period during which high water levels delay construction of a bridge, if such high water levels are common during the construction period in the geographic region involved.			
	<b>Cessation of Capitalisation</b>		<b>Cessation of Capitalisation</b>	
19	Capitalisation of borrowing costs should cease	8	Capitalisation of borrowing costs shall cease:	
	when substantially all the activities necessary to prepare the qualifying asset for its intended use or sale are complete.		(a) in case of a qualifying asset referred to in <b>item (i) and (ii) of clause (b) of sub-paragraph (1) of paragraph 2</b> , when such asset is first put to use;	<b>ICDS = on lines of AS</b>

	enterprises other than those arising from contracts with policy-holders.		doubtful debts which are adjustments to the carrying amount of assets and are not addressed in this Income Computation and Disclosure Standard.	
5	Where another Accounting Standard deals with a specific type of provision, contingent liability or contingent asset, an enterprise applies that Standard instead of this Standard. For example, certain types of provisions are also addressed in Accounting Standards on:			
	(a) construction contracts (see AS 7, Construction Contracts);			
	(b) taxes on income (see AS 22, Accounting for Taxes on Income);			
	(c) leases (see AS 19, Leases). However, as AS 19 contains no specific requirements to deal with operating leases that have become onerous, this Standard applies to such cases; and			
	(d) retirement benefits (see AS 15, Accounting for Retirement Benefits in the Financial Statements of Employers)			
6	Some amounts treated as provisions may relate to the recognition of revenue, for example where an enterprise gives guarantees in exchange for a fee. This Standard does not address the recognition of revenue. AS 9, Revenue Recognition, identifies the circumstances in which revenue is recognised and provides practical guidance on the application of the recognition criteria. This Standard does not change the requirements of AS 9.			
7	This Standard defines provisions as liabilities which can be measured only by using a substantial degree of estimation.			

## Income Computation and Disclosure Standards vis-à-vis Accounting Standards

	<b>Accounting Standard [AS]</b>		<b>Income Computation and Disclosure Standard [ICDS]</b>	
<b>[1]</b>	<b>[2]</b>	<b>[3]</b>	<b>[4]</b>	<b>[5]</b>
		8	Where details of a proposed new law have yet to be finalised, an obligation arises only when the legislation is enacted.	
	<b>Present Obligatoin</b>			
15	In almost all cases it will be clear whether a past event has given rise to a present obligation. In rare cases, for example in a lawsuit, it may be disputed either whether certain events have occurred or whether those events result in a present obligation. In such a case, an enterprise determines whether a present obligation exists at the balance sheet date by taking account of all available evidence, including, for example, the opinion of experts. The evidence considered includes any additional evidence provided by events after the balance sheet date. On the basis of such evidence:			
	(a) where it is more likely than not that a present obligation exists at the balance sheet date, the enterprise recognises a provision (if the recognition criteria are met); and			
	(b) where it is more likely that no present obligation exists at the balance sheet date, the enterprise discloses a contingent liability, unless the possibility of an outflow of resources embodying economic benefits is remote (see paragraph 68).			
	<b>Past Event</b>			
16	A past event that leads to a present obligation is called an obligating event. For an event to be an obligating event, it is necessary that the enterprise has no realistic alternative to settling the obligation created by the event.			

## Income Computation and Disclosure Standards vis-à-vis Accounting Standards

<b>ICAI</b>		<b>Notified by the CBDT</b>		Remarks-
Sr/ Para No.	<b>Accounting Standards</b> [ <i>presumably (base) corresponding to which ICDSs Issued by CBDT</i> ] [ <i>for application in the preparation of General Purpose Financial Statements and other Financial Reporting, which are subject to the attest function of the members of the ICAI</i> ]	Sr/ Para No.	<b>Income Computation and Disclosure Standards – As per Notification No. SO/892E dated 31<sup>st</sup> March, 2015</b> [ <i>for computation of an assessee's 'profit and gains of business or profession' or 'income from other sources' – u/s 145 of the Income-tax Act, 1961</i> ]	<b>ICDSs vs Actng Stands</b>
<b>[1]</b>	<b>Accounting Standard [AS]</b>	<b>[3]</b>	<b>Income Computation and Disclosure Standard [ICDS]</b>	<b>[5]</b>
17	Financial statements deal with the financial position of an enterprise at the end of its reporting period and not its possible position in the future. Therefore, no provision is recognised for costs that need to be incurred to operate in the future. The only liabilities recognised in an enterprise's balance sheet are those that exist at the balance sheet date.			
18	It is only those obligations arising from past events existing independently of an enterprise's future actions (i.e. the future conduct of its business) that are recognised as provisions. Examples of such obligations are penalties or clean-up costs for unlawful environmental damage, both of which would lead to an outflow of resources embodying economic benefits in settlement regardless of the future actions of the enterprise. Similarly, an enterprise recognises a provision for the decommissioning costs of an oil installation to the extent that the enterprise is obliged to rectify damage already caused. In contrast, because of commercial pressures or legal requirements, an enterprise may intend or need to carry out expenditure to operate in a particular way in the future (for example, by fitting smoke filters in a certain type of factory). Because the enterprise can avoid the future expenditure by its future actions, for example by changing its method of operation, it has no present obligation for that future expenditure and no provision is recognised.			
19	An obligation always involves another party to whom the obligation is owed. It is not necessary, however, to know the identity of the party to whom the obligation is owed – indeed the obligation may be to the public at large.			

## Income Computation and Disclosure Standards vis-à-vis Accounting Standards

<b>ICAI</b>		<b>Notified by the CBDT</b>		Remarks-
Sr/ Para No.	<b>Accounting Standards</b> [ <i>presumably (base) corresponding to which ICDSs Issued by CBDT</i> ] [ <i>for application in the preparation of General Purpose Financial Statements and other Financial Reporting, which are subject to the attest function of the members of the ICAI</i> ]	Sr/ Para No.	<b>Income Computation and Disclosure Standards – As per Notification No. SO/892E dated 31<sup>st</sup> March, 2015</b> [ <i>for computation of an assessee's 'profit and gains of business or profession' or 'income from other sources' – u/s 145 of the Income-tax Act, 1961</i> ]	<b>ICDSs vs Actng Stands</b>
<b>[1]</b>	<b>Accounting Standard [AS]</b>	<b>[3]</b>	<b>Income Computation and Disclosure Standard [ICDS]</b>	<b>[5]</b>
20	An event that does not give rise to an obligation immediately may do so at a later date, because of changes in the law. For example, when environmental damage is caused there may be no obligation to remedy the consequences. However, the causing of the damage will become an obligating event when a new law requires the existing damage to be rectified.			
21	Where details of a proposed new law have yet to be finalised, an obligation arises only when the legislation is virtually certain to be enacted. Differences in circumstances surrounding enactment usually make it impossible to specify a single event that would make the enactment of a law virtually certain. In many cases it will be impossible to be virtually certain of the enactment of a law until it is enacted.			
	<b>Probable Outflow of Resources Embodying Economic Benefits</b>			
22	For a liability to qualify for recognition there must be not only a present obligation but also the probability of an outflow of resources embodying economic benefits to settle that obligation. For the purpose of this Standard, an outflow of resources or other event is regarded as probable if the event is more likely than not to occur, i.e., the probability that the event will occur is greater than the probability that it will not. Where it is not probable that a present obligation exists, an enterprise discloses a contingent liability, unless the possibility of an outflow of resources embodying economic benefits is remote (see paragraph 68).			
23	Where there are a number of similar obligations (e.g.

<b>ICAI</b>		<b>Notified by the CBDT</b>		Remarks-
Sr/ Para No.	<b>Accounting Standards</b> [ <i>presumably (base) corresponding to which ICDSs Issued by CBDT</i> ] [ <i>for application in the preparation of General Purpose Financial Statements and other Financial Reporting, which are subject to the attest function of the members of the ICAI</i> ]	Sr/ Para No.	<b>Income Computation and Disclosure Standards – As per Notification No. SO/892E dated 31<sup>st</sup> March, 2015</b> [ <i>for computation of an assessee's 'profit and gains of business or profession' or 'income from other sources' – u/s 145 of the Income-tax Act, 1961</i> ]	<b>ICDSs vs Actng Stands</b>
<b>[1]</b>	<b>Accounting Standard [AS]</b>	<b>[3]</b>	<b>Income Computation and Disclosure Standard [ICDS]</b>	<b>[5]</b>
	product warranties or similar contracts) the probability that an outflow will be required in settlement is determined by considering the class of obligations as a whole. Although the likelihood of outflow for any one item may be small, it may well be probable that some outflow of resources will be needed to settle the class of obligations as a whole. If that is the case, a provision is recognised (if the other recognition criteria are met).			
	<b>Reliable Estimate of the Obligation</b>			
24	The use of estimates is an essential part of the preparation of financial statements and does not undermine their reliability. This is especially true in the case of provisions, which by their nature involve a greater degree of estimation than most other items. Except in extremely rare cases, an enterprise will be able to determine a range of possible outcomes and can therefore make an estimate of the obligation that is reliable to use in recognising a provision.			
25	In the extremely rare case where no reliable estimate can be made, a liability exists that cannot be recognised. That liability is disclosed as a contingent liability (see paragraph 68).			
	<b>Contingent Liabilities</b>		<b>Contingent Liabilities</b>	
26	An <b>enterprise</b> should not recognise a contingent liability.	9	<b>A person shall not recognize a contingent liability.</b>	<b>ICDS= on lines of AS</b>
27	A contingent liability is disclosed, as required by paragraph 68, unless the possibility of an outflow of resources embodying economic benefits is remote.			
28	Where an enterprise is jointly and severally liable for an obligation, the part of the obligation that is expected to be			

### Income Computation and Disclosure Standards vis-à-vis Accounting Standards

<b>ICAI</b>		<b>Notified by the CBDT</b>		Remarks-
Sr/ Para No.	<b>Accounting Standards</b> [ <i>presumably (base) corresponding to which ICDSs Issued by CBDT</i> ] [ <i>for application in the preparation of General Purpose Financial Statements and other Financial Reporting, which are subject to the attest function of the members of the ICAI</i> ]	Sr/ Para No.	<b>Income Computation and Disclosure Standards – As per Notification No. SO/892E dated 31<sup>st</sup> March, 2015</b> [ <i>for computation of an assessee's 'profit and gains of business or profession' or 'income from other sources' – u/s 145 of the Income-tax Act, 1961</i> ]	<b>ICDSs vs Actng Stands</b>
<b>[1]</b>	<b>Accounting Standard [AS]</b>	<b>[3]</b>	<b>Income Computation and Disclosure Standard [ICDS]</b>	<b>[5]</b>
	met by other parties is treated as a contingent liability. The enterprise recognises a provision for the part of the obligation for which an outflow of resources embodying economic benefits is probable, except in the extremely rare circumstances where no reliable estimate can be made (see paragraph 14).			
29	Contingent liabilities may develop in a way not initially expected. Therefore, they are assessed continually to determine whether an outflow of resources embodying economic benefits has become probable. If it becomes probable that an outflow of future economic benefits will be required for an item previously dealt with as a contingent liability, a provision is recognised in accordance with paragraph 14 in the financial statements of the period in which the change in probability occurs (except in the extremely rare circumstances where no reliable estimate can be made).			
	<b>Contingent Assets</b>		<b>Contingent Assets</b>	
30	An <b>enterprise</b> should not recognise a contingent asset.	10	A <b>person</b> shall not recognise a contingent asset.	<b>ICDS=</b> on lines of <b>AS</b>
31	Contingent assets usually arise from unplanned or other unexpected events that give rise to the possibility of an inflow of economic benefits to the enterprise. An example is a claim that an enterprise is pursuing through legal processes, where the outcome is uncertain.			
32	Contingent assets are not recognised in financial statements since this may result in the recognition of income that may never be realised. However, when the realisation of income is virtually certain, then the related

<b>[1]</b>	<b>Accounting Standard [AS]</b>	<b>[3]</b>	<b>Income Computation and Disclosure Standard [ICDS]</b>	<b>[5]</b>
	transactions and, in some cases, reports from independent experts. The evidence considered includes any additional evidence provided by events after the balance sheet date.			
37	The provision is measured before tax; the tax consequences of the provision, and changes in it, are dealt with under AS 22, Accounting for Taxes on Income.			
38	The risks and uncertainties that inevitably surround many events and circumstances should be taken into account in reaching the best estimate of a provision.			
39	Risk describes variability of outcome. A risk adjustment may increase the amount at which a liability is measured. Caution is needed in making judgments under conditions of uncertainty, so that income or assets are not overstated and expenses or liabilities are not understated. However, uncertainty does not justify the creation of excessive provisions or a deliberate overstatement of liabilities. For example, if the projected costs of a particularly adverse outcome are estimated on a prudent basis, that outcome is not then deliberately treated as more probable than is realistically the case. Care is needed to avoid duplicating adjustments for risk and uncertainty with consequent overstatement of a provision.			
40	Disclosure of the uncertainties surrounding the amount of the expenditure is made under paragraph 67(b).			
	<b>Future Events</b>			
41	Future events that may affect the amount required to settle an obligation should be reflected in the amount of a provision where there is sufficient objective evidence that they will occur.			

### Income Computation and Disclosure Standards vis-à-vis Accounting Standards

<b>ICAI</b>		<b>Notified by the CBDT</b>		Remarks-

<b>[1]</b>	<b>Accounting Standard [AS]</b>	<b>[3]</b>	<b>Income Computation and Disclosure Standard [ICDS]</b>	<b>[5]</b>
42	Expected future events may be particularly important in measuring provisions. For example, an enterprise may believe that the cost of cleaning up a site at the end of its life will be reduced by future changes in technology. The amount recognised reflects a reasonable expectation of technically qualified, objective observers, taking account of all available evidence as to the technology that will be available at the time of the clean-up. Thus, it is appropriate to include, for example, expected cost reductions associated with increased experience in applying existing technology or the expected cost of applying existing technology to a larger or more complex clean-up operation than has previously been carried out. However, an enterprise does not anticipate the development of a completely new technology for cleaning up unless it is supported by sufficient objective evidence.			
43	The effect of possible new legislation is taken into consideration in measuring an existing obligation when sufficient objective evidence exists that the legislation is virtually certain to be enacted. The variety of circumstances that arise in practice usually makes it impossible to specify a single event that will provide sufficient, objective evidence in every case. Evidence is required both of what legislation will demand and of whether it is virtually certain to be enacted and implemented in due course. In many cases sufficient objective evidence will not exist until the new legislation is enacted.			
	<b>Expected Disposal of Assets</b>			
44	Gains from the expected disposal of assets should not be			

### Income Computation and Disclosure Standards vis-à-vis Accounting Standards

<b>ICAI</b>		<b>Notified by the CBDT</b>		Remarks-
Sr/ Para No.	<b>Accounting Standards</b> [ <i>presumably (base) corresponding to which ICDSs Issued by CBDT</i> ] [ <i>for application in the preparation of General Purpose Financial Statements and other Financial Reporting, which are subject to the attest function of the members of the ICAI</i> ]	Sr/ Para No.	<b>Income Computation and Disclosure Standards – As per Notification No. SO/892E dated 31<sup>st</sup> March, 2015</b> [ <i>for computation of an assessee's 'profit and gains of business or profession' or 'income from other sources' – u/s 145 of the Income-tax Act, 1961</i> ]	<b>ICDSs vs Actng Stands</b>
<b>[1]</b>	<b>Accounting Standard [AS]</b>	<b>[3]</b>	<b>Income Computation and Disclosure Standard [ICDS]</b>	<b>[5]</b>
	taken into account in measuring a provision.			
45	Gains on the expected disposal of assets are not taken into account in measuring a provision, even if the expected disposal is closely linked to the event giving rise to the provision. Instead, an enterprise recognises gains on expected disposals of assets at the time specified by the Accounting Standard dealing with the assets concerned.			
	<b>Reimbursements</b>		<b>Reimbursements</b>	
46	Where some or all of the expenditure required to settle a provision is expected to be reimbursed by another party, the reimbursement should be recognised when, and only when, it is virtually certain that reimbursement will be received if the enterprise settles the obligation. The reimbursement should be treated as a separate asset. The amount recognised for the reimbursement should not exceed the amount of the provision.	14	Where some or all of the expenditure required to settle a provision is expected to be reimbursed by another party, the reimbursement shall be recognised when it is reasonably certain that reimbursement will be received if the person settles the obligation. The amount recognised for the reimbursement shall not exceed the amount of the provision.	<b>ICDS= on lines of AS</b>
47	In the statement of profit and loss, the expense relating to a provision may be presented net of the amount recognised for a reimbursement.			
48	Sometimes, an enterprise is able to look to another party to pay part or all of the expenditure required to settle a provision (for example, through insurance contracts, indemnity clauses or suppliers' warranties). The other party may either reimburse amounts paid by the enterprise or pay the amounts directly.			
49	In most cases, the enterprise will remain liable for the whole of the amount in question so that the enterprise			

## Income Computation and Disclosure Standards vis-à-vis Accounting Standards

<b>ICAI</b>		<b>Notified by the CBDT</b>		Remarks-
Sr/ Para No.	<b>Accounting Standards</b> [ <i>presumably (base) corresponding to which ICDSs Issued by CBDT</i> ] [ <i>for application in the preparation of General Purpose Financial Statements and other Financial Reporting, which are subject to the attest function of the members of the ICAI</i> ]	Sr/ Para No.	<b>Income Computation and Disclosure Standards – As per Notification No. SO/892E dated 31<sup>st</sup> March, 2015</b> [ <i>for computation of an assessee's 'profit and gains of business or profession' or 'income from other sources' – u/s 145 of the Income-tax Act, 1961</i> ]	<b>ICDSs vs Actng Stands</b>
<b>[1]</b>	<b>Accounting Standard [AS]</b>	<b>[3]</b>	<b>Income Computation and Disclosure Standard [ICDS]</b>	<b>[5]</b>
	would have to settle the full amount if the third party failed to pay for any reason. In this situation, a provision is recognised for the full amount of the liability, and a separate asset for the expected reimbursement is recognised when it is virtually certain that reimbursement will be received if the enterprise settles the liability.			
50	In some cases, the enterprise will not be liable for the costs in question if the third party fails to pay. In such a case, the enterprise has no liability for those costs and they are not included in the provision.	15	Where a person is not liable for payment of costs in case the third party fails to pay, no provision shall be made for those costs.	<b>ICDS=</b> on lines of <b>AS</b>
51	As noted in paragraph 28, an obligation for which an enterprise is jointly and severally liable is a contingent liability to the extent that it is expected that the obligation will be settled by the other parties.	16	An obligation, for which a person is jointly and severally liable, is a contingent liability to the extent that it is expected that the obligation will be settled by the other parties.	<b>ICDS=</b> on lines of <b>AS</b>
	<b>Changes in Provisions</b>		<b>Review</b>	
52	Provisions should be reviewed at each balance sheet date and adjusted to reflect the current best estimate. If it is no longer probable that an outflow of resources embodying economic benefits will be required to settle the obligation, the provision should be reversed.	17	Provisions shall be reviewed at the end of each previous year and adjusted to reflect the current best estimate. If it is no longer reasonably certain that an outflow of resources embodying economic benefits will be required to settle the obligation, the provision should be reversed.	<b>ICDS=</b> on lines of <b>AS</b>
		18	An asset and related income recognised as provided in para 11 shall be reviewed at the end of each previous year and adjusted to reflect the current best estimate. If it is no longer reasonably certain that an inflow of economic benefits will arise, the asset and related income shall be reversed.	

### Income Computation and Disclosure Standards vis-à-vis Accounting Standards

	<b>ICAI</b>		<b>Notified by the CBDT</b>	Remarks-
Sr/ Para No.	<b>Accounting Standards</b> [ <i>presumably (base) corresponding to which ICDSs Issued by CBDT</i> ] [ <i>for application in the preparation of General Purpose Financial Statements and other Financial Reporting, which are subject to the attest function of the members of the ICAI</i> ]	Sr/ Para No.	<b>Income Computation and Disclosure Standards – As per Notification No. SO/892E dated 31<sup>st</sup> March, 2015</b> [ <i>for computation of an assessee's 'profit and gains of business or profession' or 'income from other sources' – u/s 145 of the Income-tax Act, 1961</i> ]	<b>ICDSs vs Actng Stands</b>

<b>[1]</b>	<b>[2]</b>	<b>[3]</b>	<b>[4]</b>	<b>[5]</b>
	<b>Use of Provisions</b>		<b>Use of Provisions</b>	
53	A provision should be used only for expenditures for which the provision was originally recognised.	19	A provision shall be used only for expenditures for which the provision was originally recognised.	<b>ICDS= Same as in AS</b>
54	Only expenditures that relate to the original provision are adjusted against it. Adjusting expenditures against a provision that was originally recognised for another purpose would conceal the impact of two different events.			
	<b>Application of the Recognition and Measurement Rules</b>			
	<b>Future Operating Losses</b>			
55	Provisions should not be recognised for future operating losses.			
56	Future operating losses do not meet the definition of a liability in paragraph 10 and the general recognition criteria set out for provisions in paragraph 14.			
57	An expectation of future operating losses is an indication that certain assets of the operation may be impaired. An enterprise tests these assets for impairment under Accounting Standard (AS) 28, Impairment of Assets.			
	<b>Restructuring</b>			
58	The following are examples of events that may fall under the definition of restructuring:			
	(a) sale or termination of a line of business;			
	(b) the closure of business locations in a country or region or the relocation of business activities from one country or region to another;			
	(c) changes in management structure, for example, eliminating a layer of management; and

Sr/ Para No.	<b>Accounting Standards</b> [ <i>presumably (base) corresponding to which ICDSs Issued by CBDT</i> ] [ <i>for application in the preparation of General Purpose Financial Statements and other Financial Reporting, which are subject to the attest function of the members of the ICAI</i> ]	Sr/ Para No.	<b>Income Computation and Disclosure Standards – As per Notification No. SO/892E dated 31<sup>st</sup> March, 2015</b> [ <i>for computation of an assessee's 'profit and gains of business or profession' or 'income from other sources' – u/s 145 of the Income-tax Act, 1961</i> ]	<b>ICDSs vs Actng Stands</b>
	<b>Accounting Standard [AS]</b>		<b>Income Computation and Disclosure Standard [ICDS]</b>	
<b>[1]</b>	<b>[2]</b>	<b>[3]</b>	<b>[4]</b>	<b>[5]</b>
	(d) fundamental re-organisations that have a material effect on the nature and focus of the enterprise's operations.			
59	A provision for restructuring costs is recognised only when the recognition criteria for provisions set out in paragraph 14 are met.			
60	No obligation arises for the sale of an operation until the enterprise is committed to the sale, i.e., there is a binding sale agreement.			
61	An enterprise cannot be committed to the sale until a purchaser has been identified and there is a binding sale agreement. Until there is a binding sale agreement, the enterprise will be able to change its mind and indeed will have to take another course of action if a purchaser cannot be found on acceptable terms. When the sale of an operation is envisaged as part of a restructuring, the assets of the operation are reviewed for impairment under Accounting Standard (AS) 28, Impairment of Assets.			
62	A restructuring provision should include only the direct expenditures arising from the restructuring which are those that are both:			
	(a) necessarily entailed by the restructuring; and			
	(b) not associated with the ongoing activities of the enterprise.			
63	A restructuring provision does not include such costs as:			
	(a) retraining or relocating continuing staff;			
	(b) marketing; or			
	(c) investment in new systems and distribution networks.			
	These expenditures relate to the future conduct of the
